Ingredients

INCI name Psoralea corylifolia
Ayurvedic name Vakuchi/Babchi
Common English name Purple Fleabane

Babchi is reported to have potent melanin synthesis properties, it is traditionally used as a potent anti-vitiligo herb, modern scientific studies have also found it effective to manage depigmentation and other skin problems. It has Bakuchiol as an active constituent that has retinol like functional benefits and is useful to manage and prevent acne. It is also studied and found effective as an anti-aging cosmeceutical herb.

Ingredients

INCI name Terminalia chebula
Ayurvedic name Haritaki
Common English name Myrobalan

Terminalia chebula is studied and found to repair photo damaged skin, it also exhibits anti-aging and healing properties. Its fruits extract found not only restorative to diminish visible signs of existing pollution induced damage to skin but also as a preventative to help defend skin against damages caused by chronic exposure to environmental pollution. Terminalia fruits extract helps promote collagen synthesis and protect against UVB induced skin damage.

Ingredients

INCI name Rubia cordifolia
Ayurvedic name Manjishtha
Common English name Madder

Rubia cordifolia is a well-known ayurvedic herb possessing superior cosmetic properties, Rubia is used to prevent and manage depigmentation of skin, helps prevent acne outbreak and makes skin texture firmer and smoother. It is found to relieve and soothe red and irritated skin; it helps in managing hypo-pigmentation and provide an even skin tone. Some studies have also suggested that it possesses anti-inflammatory, anti-bacterial and antioxidant properties which makes it an excellent cosmeceutical herb.

Functions & benefits

1. Helps enhance color of depigmented skin.
2. Helps stimulate natural melanin synthesis.
3. Helps improve skin texture.
4. Helps reduce free radical induced oxidative stress.
5. Helps promote anti-aging benefits.

Specifications

INCI NAME	Psoralea corylifolia, Terminalia chebula, Rubia cordifolia
APPEARANCE	Brown, fine powder
SOLUBILITY	90% minimum
pH OF 1.0% SOLUTION	4-6

Applications

Creams & Lotions, Serums, gels

Use Levels

1.0 % to 2.5 %

Storage

Store in tightly sealed containers at room temperatures.
Avoid exposure to excessive humidity & heat.
